SKILLS

Languages & Frameworks: Python, Java, JavaScript, TypeScript, FastAPI, Spring Boot, React, Next.js

Data & Analytics: SQL, PostgreSQL, MongoDB, Polars, Pandas, DuckDB, OpenSearch, Statsmodels

AI & Machine Learning: Scikit-learn, XGBoost, Predictive Modeling, Data Visualization

Engineering & Infrastructure: Docker, Celery, Redis, Linux, Git, WebSockets, Bash

PROJECTS

RepoLens - Repository Intelligence Platform | [Live Demo](#) | [GitHub](#)

Tech Stack: Python, FastAPI, Next.js, React, TypeScript, PostgreSQL, SQLAlchemy, Redis, Celery, Scikit-learn

- Developed a full-stack repository intelligence platform for analyzing software projects and presenting codebase insights through an interactive developer dashboard.
- Built a scalable FastAPI backend with asynchronous database access, Redis/Celery background processing, and ML-oriented analysis capabilities.
- Designed and deployed a modern Next.js/React interface for exploring repository-level engineering insights.

CodeSync - Real-Time Collaborative Coding Platform | [Live Demo](#) | [GitHub](#)

Tech Stack: Python, FastAPI, Next.js, React, TypeScript, PostgreSQL, SQLAlchemy, Redis, Celery, Scikit-learn

- Built a real-time collaborative coding platform enabling multiple users to edit shared code sessions with low-latency synchronization.
- Implemented WebSocket/STOMP communication for synchronizing editor changes and collaboration events across connected users.
- Developed a Spring Boot backend with REST APIs, security, session management and PostgreSQL persistence, integrated with a React/TypeScript Monaco Editor frontend.

DataForge - AI-Powered Data Intelligence Platform | [Live Demo](#) | [GitHub](#)

Tech Stack: Python, FastAPI, Next.js, React, TypeScript, Polars, Pandas, DuckDB, PostgreSQL, SQLAlchemy, OpenSearch, Scikit-learn, XGBoost, Celery, Redis

- Built a full-stack data intelligence platform for ingesting, processing, analyzing, querying, and visualizing structured business data.
- Engineered a scalable data backend using FastAPI, Polars, DuckDB, PostgreSQL and OpenSearch with Celery/Redis for asynchronous processing.
- Integrated machine-learning and statistical analysis using Scikit-learn, Statsmodels and XGBoost with analytical reporting and data export capabilities.
-

EDUCATION

Bachelor of Technology in Computer Science & IT

SOA Institute of Technical Education and Research

| 2024 - 2028 (Expected)

CERTIFICATIONS

- [Getting Started with Artificial Intelligence](#) - IBM SkillsBuild (Issued: March 10, 2026)
- [AI for Beginners](#) - HP LIFE (Issued: July 14, 2025)

ACHIEVEMENTS

- [QuantumHacks Hackathon Winner](#) - Won hackathon on Devpost organized by Quantum Hacks
